

Advocacy

Your FSO Provides These Opportunities

Peer to Peer Support

As parents of children with challenges, we understand the situations our families are encountering. We help families navigate the mental health, juvenile justice and special education systems. We offer support groups so family members can talk with others who are “walking in their shoes” and share feelings, resources, and ideas.

It is our goal that families become experts at getting the services and opportunities their children need to remain at home, in school and with community supports.

Our Parent Support Partners take pride in having helped to move their children forward and in having learned to understand what opportunities may exist for their youngsters. We can help you begin to understand and navigate some of the more complex public and private systems that are there for our children to utilize. We offer coaching in techniques of self advocacy. We will assist you with letter writing or brainstorm with you to come up with a strategy to attempt to find the care you need for your child.

We can link you with educational and supportive opportunities that will be helpful in raising your child.

Workshops and Support Meetings

- Support Groups (Parents Anonymous & SASS, Supporting Autistic Spectrum Success)
- CHADD (Children and Adults with Attention-Deficit/Hyperactivity Disorder)
- Total Transformation Program & Explosive Child
- Guest Speakers & Organizations
- Go to www.fsoburlco.org to view our newsletter and to see our latest offerings

YOUTH PARTNERSHIP

Youth Partnership is a group of active young people, ages 13-21 years old with mental health challenges, or developmental disabilities who want their voices to be heard by the mental health system. Please call 609-265-8838 to learn more about this dynamic youth movement.

WARM-LINE

Our Warm Line is for parents/guardians and community members that need a friendly, supportive voice to speak with regarding community services and children’s mental health. Try the Warm Line for local information and resources. Please call Monday through Friday, 9:00AM-5:00PM.

We Can Help!

The Family Support Organization of Burlington County is a private, non-profit organization and a partner in New Jersey's Department of Children and Families (Child Behavioral Health Services). As a partner in the system of care we support, educate and advocate for families whose children have developmental disabilities, emotional, behavioral, and mental health challenges. The perspective we bring is family-oriented. Our staff members are parents or guardians whose children have experienced the same challenges and successes as the families we serve.
